

Industrial Casters, Wheels and Material Handling Products

EXPANDED NYLATRON HD WHEEL LINE

RWM's Nylatron HD Wheels are as strong as steel. These are EXTREMELY heavy duty wheels designed for severe loads. They have great rollability and are easier on floors than steel and iron wheels. Nylatron HD Wheels do not chunk or separate under extreme applications. They are resilient against high temperature buildup from bearings and friction.

FEATURES

Finish: Machined

Bores: Special configurations available on request

Keyways: Can be installed on most sizes

Bearings: Sealed Precision Ball Bearings

Durometer: Shore 80-85D

Options: Custom configurations available upon request.

These wheels are not for use in heavily acidic or base environments.

Contact RWM for larger sizes.

Hub length includes top hat bushings.
