

Stainless Steel Wheels Offerings Guide

RWM Stainless steel wheels are well suited for highly corrosive environments and can be subjected to high temperatures without showing signs of degradation or corrosion. Produced in type 303 stainless steel, these wheels offer great capacity range and can withstand the most harmful environments when other wheels can't. For additional product information, please visit our website at www.rwmcasters.com or contact customer service.

Excellent for the following applications:

- Food Processing
- Animal Cages
- Autoclaves
- Chemical Plants
- Clean Rooms
- Medical
